Modern Liberty  
Institute for Advanced Studies  
James Weir Building,  
75 Montrose Street  
Glasgow G1 1XJ

The new Institute for Advanced Studies is a place for unconstrained thinking, where ground-breaking concepts can be developed and explored, to benefit the culture, society and economy of Scotland and the UK and their future scientific and technological capabilities. The Institute funds programmes bringing together key participants from around the world in a physical location in central Glasgow, hosted by the University of Strathclyde. By crossing disciplinary boundaries, and with knowledge exchange with the public at their heart, programmes aim to inform public policy and practice.
