# All 232 SDG Indicators: What data is available?

This visualization shows for which of the 230 *Sustainable Development Goals (SDGs) Indicators* data is available at [SDG-Tracker.org](https://sdg-tracker.org).

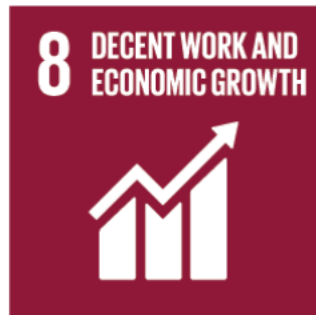

- = Indicators for which recent global official metrics are available, or for which alternative good-quality cross-country source are available (e.g. estimates from independent research institutes).
- = Indicators that do have official metrics, but for which available data is very incomplete or outdated. Yellow boxes also mark Indicators for which there are no official metrics, but for which closely related estimates are available that allow informative but imperfect monitoring.
- = Indicators for which – to the best of our knowledge – global monitoring is not currently possible.

You find all data on [SDG-Tracker.org](https://sdg-tracker.org), a sister project of [OurWorldinData.org](https://ourworldindata.org). In case you are aware of relevant data we have not included yet please let us know via [SDG-Tracker.org](https://sdg-tracker.org).

# SUSTAINABLE DEVELOPMENT GOALS

# Our contribution so far...

01

## Provided space for Scotland's SDGs champions

Since 2017, our [globalgoals.scot](https://globalgoals.scot) website has provided an online public facing platform for the SDGs in Scotland, as well as our online forum and social presence @SDGScotland

02

## Secured a commitment to partnership from the FM

In January 2018, over 100 organisations and 300 people signed our open letter to decision makers calling for more action and commitment towards the SDGs

03

## Helped secure the alignment of Scotland's NPF with the SDGs

In early 2019, we held workshops with the Scottish Government to align how Scotland measures its progress with the SDGs, bringing the goals to the heart of government policy

04

## Co-developed Scotland's national and civil society reviews

In 2019, we supported the publication of a civil society snapshot of Scotland's progress towards the goals. From 2018/20, we worked collaboratively with the Scottish Government on a national review

05

## Building support for a Wellbeing & Sustainable Development Bill

In January 2021, over 70 organisations pledged their support to the network's open letter calling for a new Wellbeing and Sustainable Development (Scotland) Bill

# Join us today - we aim to...

- 01** Provide an open and collaborative platform for members to contribute
- 02** Generate debates and discussions that facilitate practical plans for action

- 03** Inform and influence policy and decision making in Scotland
- 04** Communicate and raise awareness of principles of sustainable development
- 05** Increase understanding of interdependencies between society, economy, environment
