# Welcome and Introductions

In pairs

- Name and nature of involvement – what can you give, what can you get?
- Reflections on previous sessions and aspirations for the day

# Purpose of the Day : Discuss

- To reflect on the other two events, ensuring this event is part of a cohesive whole
- To consider the wider context of social enterprise and community justice with particular reference to the national Social Enterprise Strategy and first three year action plan where the criminal justice action has not progressed. To consider other lines of commissioning including the PSP models to new approaches to community justice locally, nationally and internationally.
- To unify all represented organisations, many of whom will be coming from very specific perspectives, round a single idea of a community justice pilot.

Questions, comments and thoughts

# Social Enterprise

Over the next decade we will see social enterprise at the vanguard of a new wave of ethical and socially responsible business in Scotland. It will make its breakthrough as part of a more diverse and vibrant economy, helping to balance economic growth with the protection of public services, the continuing fight against poverty and the promotion of equality. It will become central to the ‘Scottish approach’ to doing business

Vision 2025

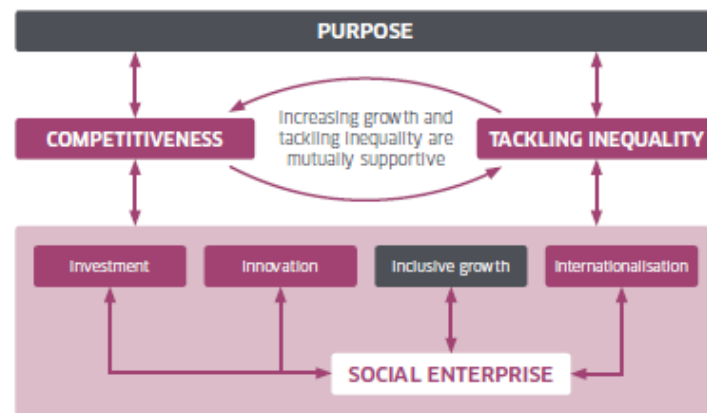

# SCOTLAND'S SOCIAL ENTERPRISE STRATEGY

2016-26

Scotland's Economic Strategy

Over the next decade social enterprise will be at the forefront of a new wave of ethical and socially responsible business in Scotland. It will become a far-reaching and valued alternative and a key part of the Scottish way of doing business.

# From the 3 year SE Action Plan

## 3A.8. GROWING THE ROLE OF SOCIAL ENTERPRISE IN CRIMINALJUSTICE

- We will raise awareness of the contribution of social enterprises to Scotland's Community Justice Strategy, share associated best practice and identify opportunities for the sector to deliver better outcomes for people in the care of the Scottish Prison Service.

If you had one criminal justice action out of 92 how would you re-frame this for the second three year action plan (with preparatory work in the last year of this?)

# External Context and Influence

## Two Groups

- Current policy context
  - Frustrations / gaps / opportunities
- Other influencers – budget, legal changes, Brexit, Bill of Rights, etc

# Grand Vision and themes

Vision : See previous sheet

Build on the learning from the two other sessions and thinking this morning. What is the vision, what is the gap?

3 groups to come up with pilot ideas broadly.

# Prioritise pilot ideas if Possible

The judge on the following parameters – are there more?

1. Scale and nature of Impact – contribution to bigger vision already articulated
2. Ease of implementation and take up
3. Cost and fundability
4. Fit with Broader strategy

# Short-list of ideas (ideally 2)

Working groups to flesh out what this pilot looks like and how it will be implemented who will be involved?

- Activity
- Components of the work
- Crucial and additional partners
- Resources
- Governance and management
- Funding and finance
- Reporting and evaluating impact
